## UCM6100 Series - **Video**

*Delivering high quality, secure and reliable video communications*

### Full SIP Video Support

- ◆ Any SIP video endpoint, such as
  - ◆ Video Phones
  - ◆ Video Conferencing Solutions
  - ◆ Door/Facility Access Cameras/Modules
  - ◆ IP Video Surveillance cameras

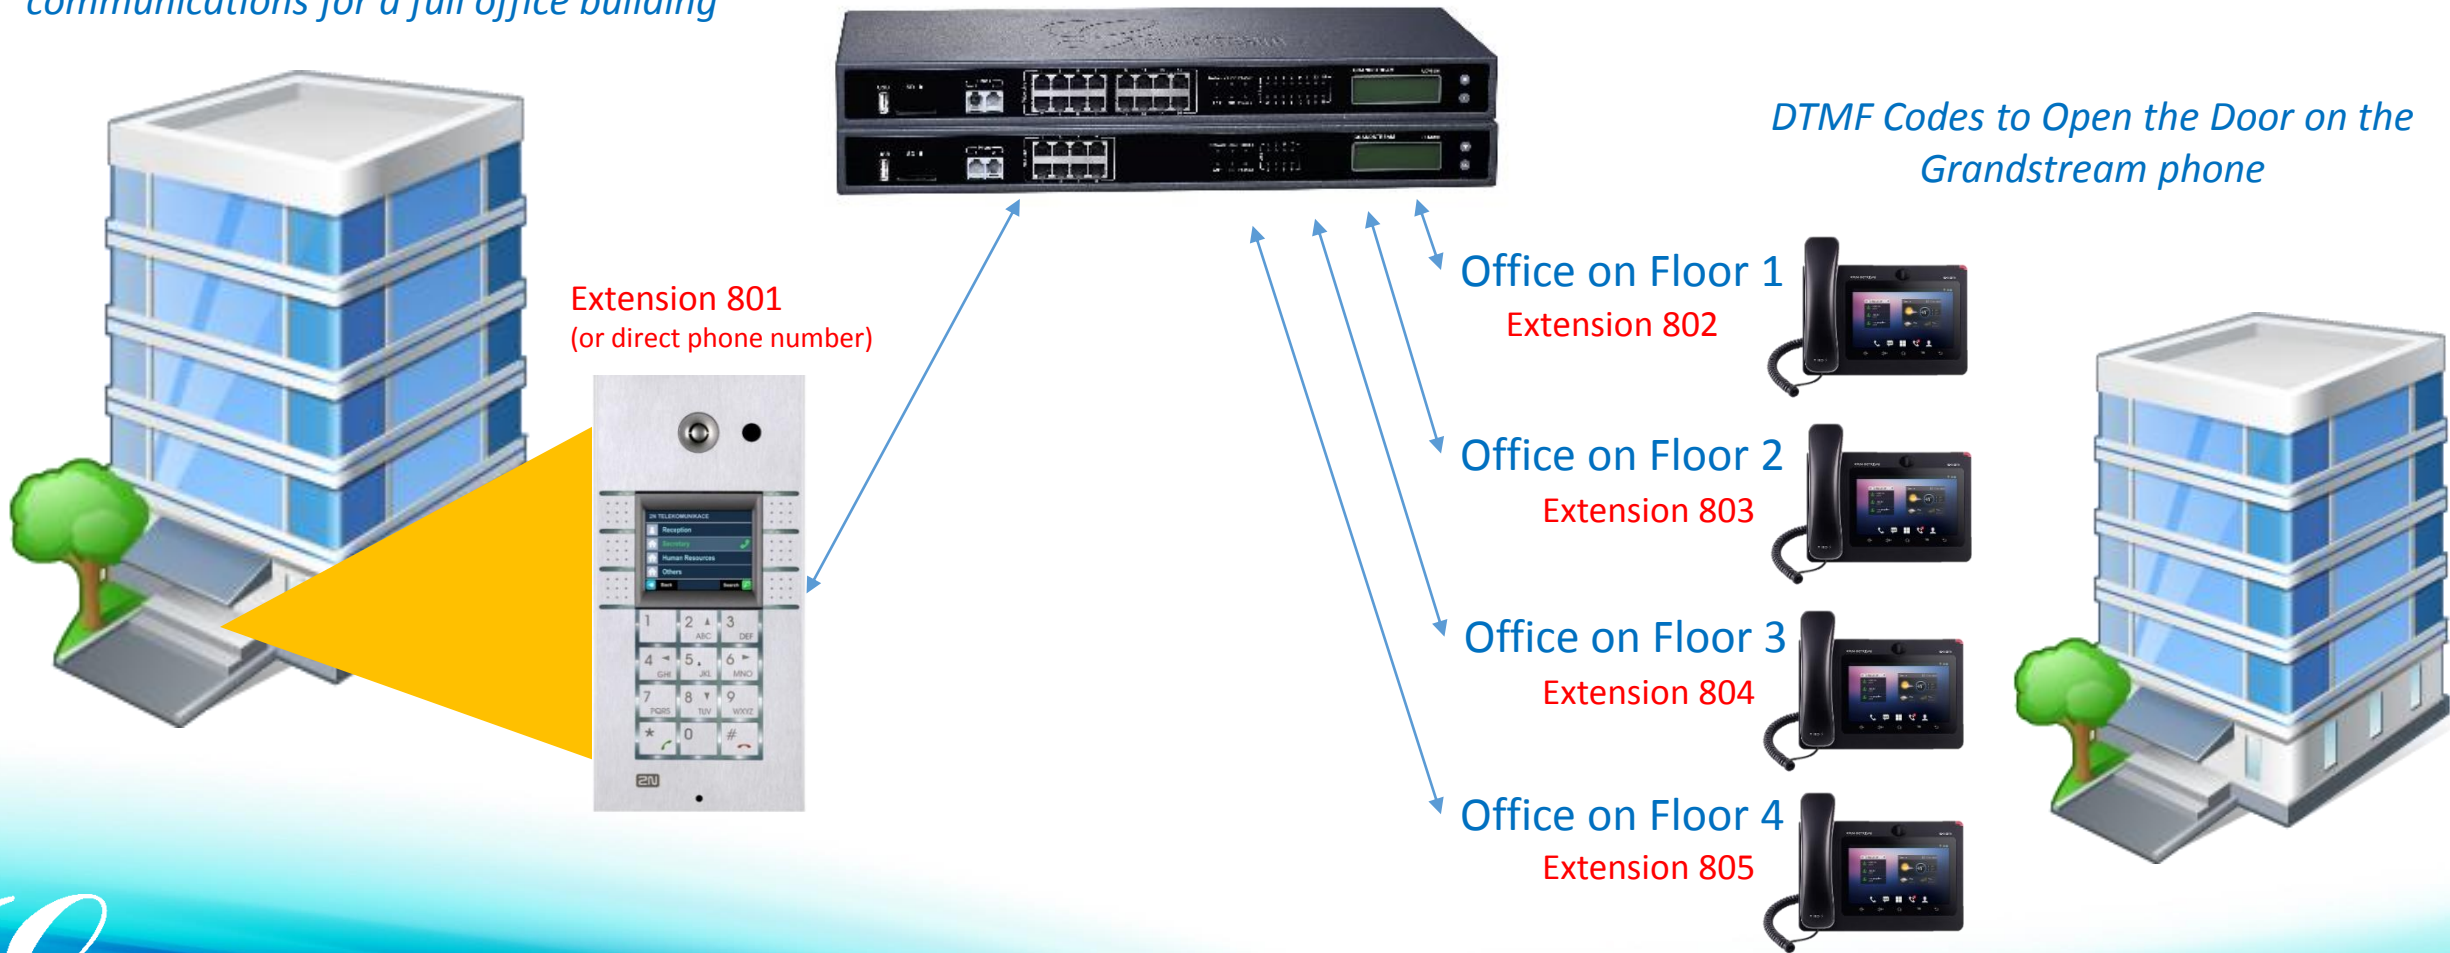

## Door Camera Solutions

- 1. Using Grandstream devices with 3<sup>rd</sup> party IP Door Cameras**
- 2. Creating a Door Camera Solution with Grandstream IP Cameras and IP Video Phones**

## A Door Camera Solution...

*Also use the UCM6100 series to supply all communications for a full office building*

# The Upper West Side Apartments

Also use the UCM6100 series to supply all communications for a full apartment building

Melbourne, Australia

Visit our case studies page for more

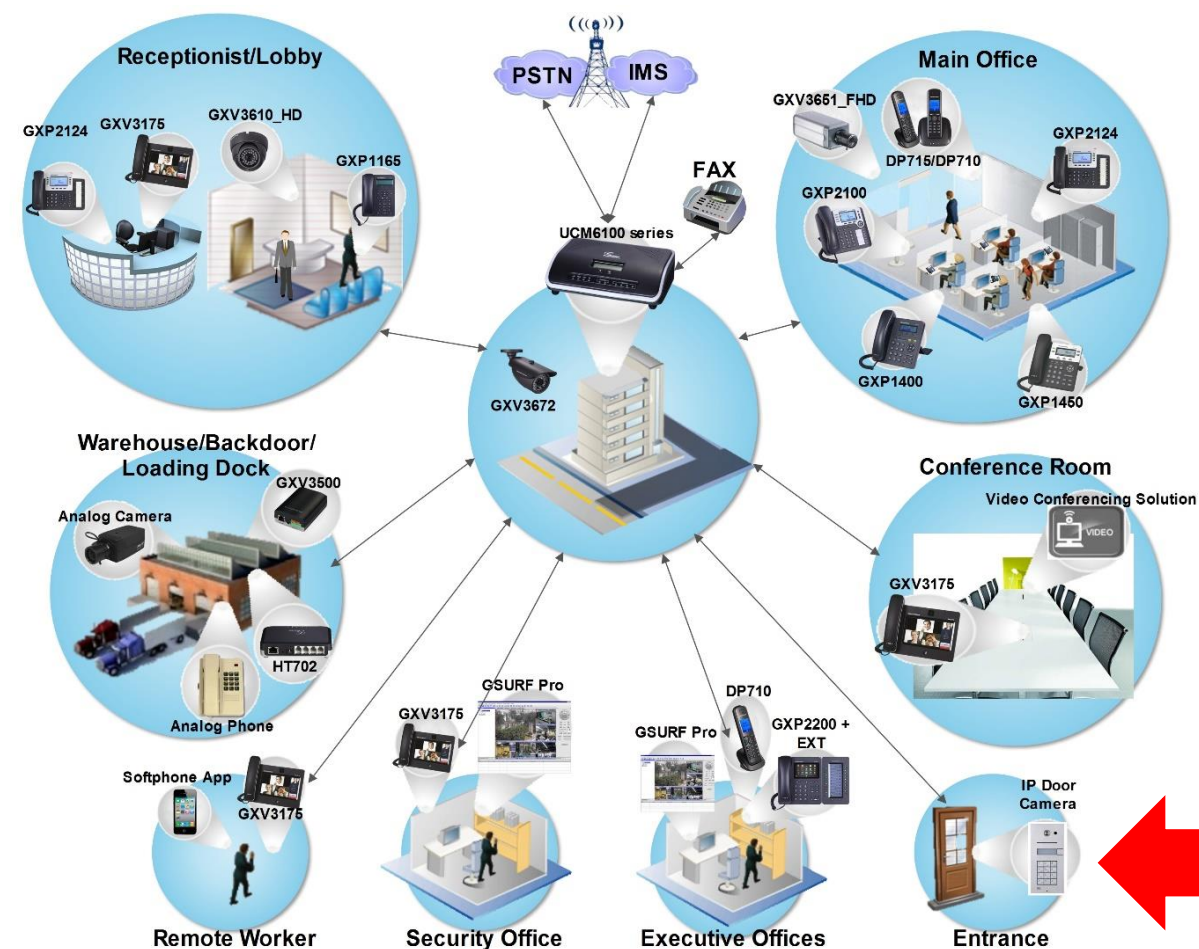

DTMF Codes to Open the Door on the Grandstream phone

# A True Unified Communications Solution

## Easily Integrate a Door Camera Solution With Your Business Communications Solutions

- ◆ All Grandstream phone, cameras, and UCM6100 series – as well as IP Door Cameras are SIP-based devices
- ◆ A true Unified Communications solution offering voice, video, data and mobility features
- ◆ All devices can be easily setup, customized and managed from one central location
- ◆ Add functionality to devices by combining them onto the same network
- ◆ Even add/include analog phones and analog cameras

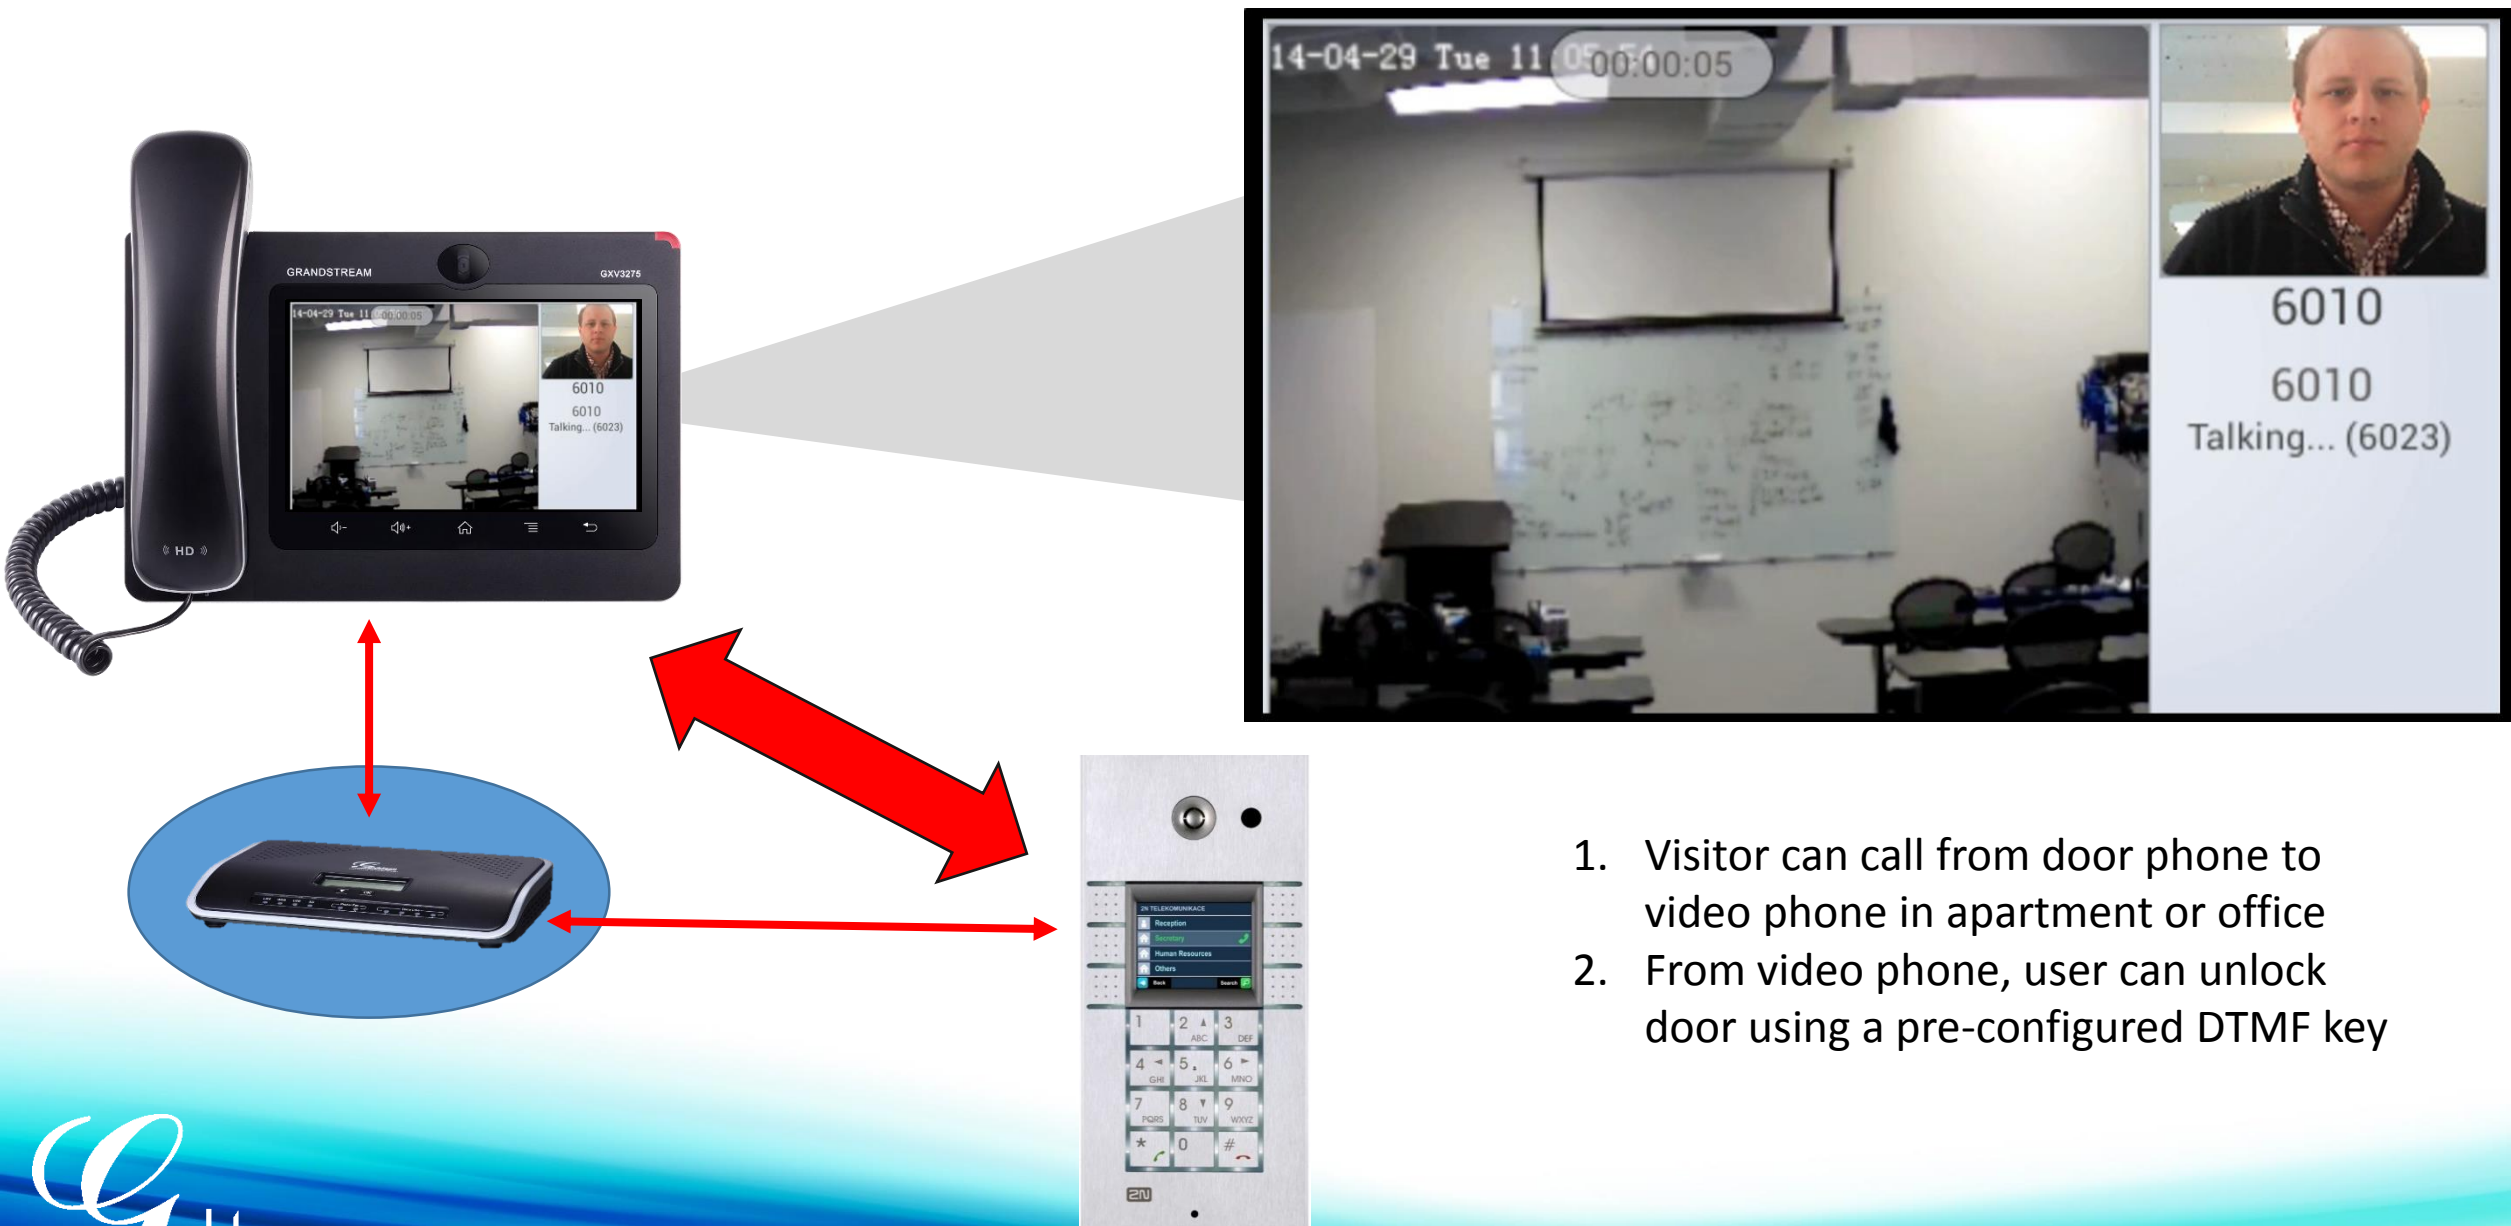

## Communicate With Cameras/Door Cameras on Any Network

- ◆ **IP Camera's and Door Cameras can send alerts or be contacted from outside networks thanks to their SIP registration when registered to an IP PBX**
  - ◆ You set the phone number the cameras contact when an alert is triggered
  - ◆ With a SIP registration, any IP camera or Door Cameras is given a phone number/IP address that can be called to view the camera's live feed
  - ◆ View camera's live feed from any device that has an internet connection

# Integrating Surveillance and Door Access Solutions with Your IP PBX

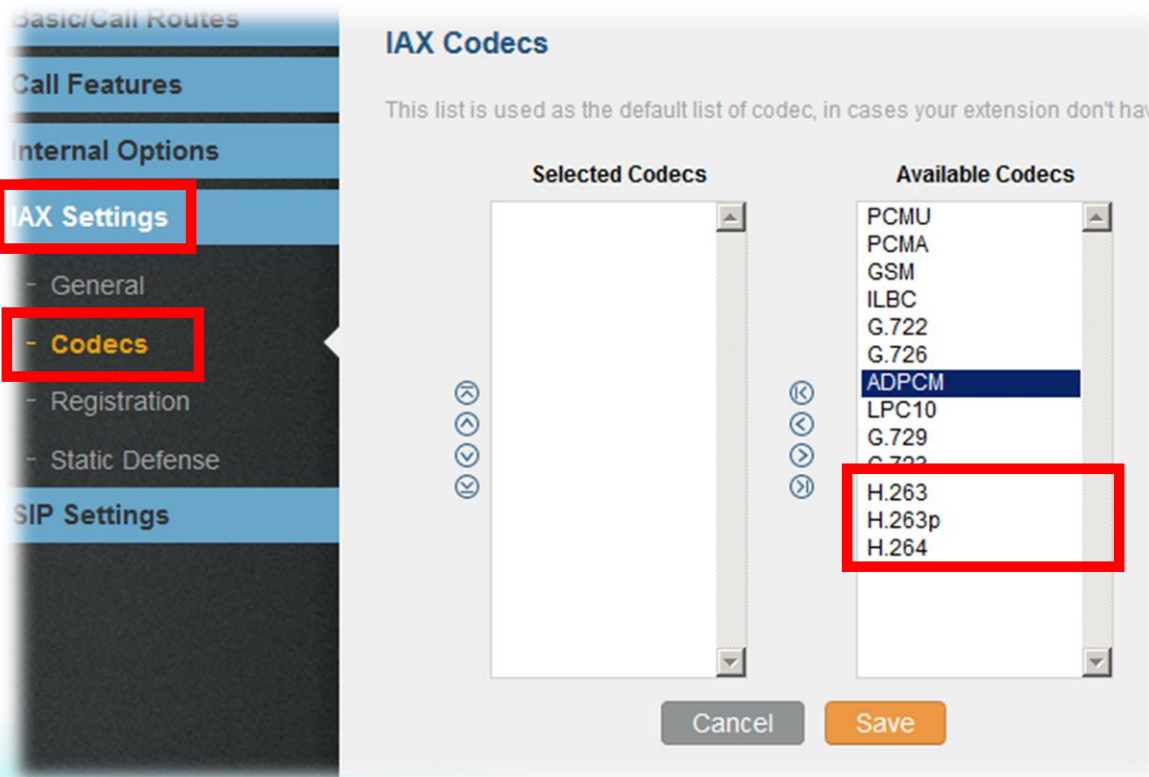

1. Visitor can call from door phone to video phone in apartment or office
2. From video phone, user can unlock door using a pre-configured DTMF key

## UCM6100 - Video

*Delivering high quality, secure and reliable video communications*

**Supports all major  
video codecs**

- H.263
- H.263+
- H.264

*Make sure you enable the proper video codecs on the UCM6100 series and the IP Door Camera. This simple mistake is the most common configuration mistake*

## Door Camera Solutions

1. *Using Grandstream devices with 3<sup>rd</sup> party IP Door Cameras*
2. *Creating a Door Camera Solution with Grandstream IP Cameras and IP Video Phones*

## Turn a Grandstream IP Surveillance Camera into a Door Opener when Paired with a Grandstream Video Phone

*Step 1: Configure the Grandstream Video Phone and the IP Camera*

*Step 2: Enable Alert Event*

*Step 3: Connect Doorbell and IP Camera*

*Step 4: Open Door via Incoming Video Call*

1. Receive video calls from cameras whenever alerts/alarms are triggered
2. Make video calls to cameras to see the live feed

# The Kovalevo Center

Kastroma, Russia

*Many Grandstream cameras includes a variety of inputs/outputs to integrate with other devices, such as a **door bell**, so that when the door bell is ringed, the camera will send the alert.*

*Camera, with motion detection enabled and alarm event set to "SIP Call"*

*DTMF Codes to Open the Door on the Grandstream phone*

## Motion Detection

- Available on all Grandstream cameras
- Up to 16 target areas per camera
- Easily setup in 3 steps using a camera's Web UI
- Grandstream's ONVIF-compliance will allow motion detection on our camera to interact with any ONVIF VMS, NVR, etc.

Enterprise

Small Business
